

Service Award Proposal Preliminary Notice Form

This preliminary notice form demonstrates the intention of students from your school to submit an ACAMIS Service Award Proposal. Proposals such as these may mesh well with CAS or other forms of student leadership within your school. The ACAMIS Board has established a fund of US\$10,000 with a minimum award of US\$1000 and the maximum award of US\$ 2500. The funding is meant to support specific parts of the selected projects.

This preliminary notice is needed for ACAMIS to know which schools are participating and to establish contact with schools and groups that are working on a Service Award proposal. The preliminary application and the actual proposal will be evaluated on the merit of the concept. This means that a proposed project need not already be in place, but can be implemented after submission of the proposal when the outcome of the Award is known. Of course, projects that are already underway are also eligible for consideration. The best projects are those that carry on over time by other students moving up in school. As it can take up to two years for a project to start, a project is best proposed by students in grades 9-11 or years 10-12. File the preliminary notice form as soon as possible and when the proposal is ready, submit the online application.

Name of ACAMIS Member School

Print Name of Teacher Sponsor or Organizer

email address of sponsor or organizer

These projects serve as examples of previously funded Service Awards and are not meant to be categories for your group.

- Intercultural: Teach touch Rugby to local students
